**FAMJET Maxi Mini Mobile:
the beginning of a new era in manual coding**

FAMJET Maxi Mini Mobile is our new portable, manual, ultra-compact and ultra-light INK-JET printer, equipped with Collins[®] 25.4 mm high inkjet cartridges, powered by a rechargeable battery. This unique device, which weighs only 290 grams, was created to satisfy users for whom the freedom of marking, coding and labeling of products in terms of location and time is crucial. It is also the device for users who require a low cost of purchase and convenient operation. The Maxi Mini Mobile model covers all the basic features of INK-JET printers. It does not require any maintenance. It makes prints durable and legible on a variety of surface types with contactless marking technology that enables automatic updating of variable data and printing text and graphic symbols using Windows[®].
